# ABOUT US

At Fast Elevators, we design, manufacture, install, and maintain vertical transportation systems built around safety, performance, and reliability. Since 2000, we have grown from a local workshop into a trusted name in Pakistan, delivering elevator solutions that add lasting value to residential, commercial, and industrial buildings.

## Who We Are

A team of experienced engineers, designers, and technicians committed to delivering dependable elevator and escalator solutions, tailored to your building, your needs, and your budget.

## What Sets Us Apart

- Complete solutions, from design & installation to maintenance & after sales support.
- In house R&D for customized cabin designs & energy efficient systems.
- Safety, quality & precision backed by international engineering standards.

# CEO MESSAGE

**Mr. Akhter Ali**  
**Chief Executive Officer**

“

As CEO of Fast Elevators, I am proud of our journey from a modest workshop to a trusted leader in vertical mobility solutions. Our growth is driven by unwavering commitment to safety, innovation & lasting client relationships. Every elevator we deliver is built to move people and goods safely, efficiently, and reliably. I invite you to discover Fast Elevators and experience the confidence that comes with choosing a trusted partner in vertical transportation.

# INDUSTRY OVERVIEW

A look at today's vertical mobility landscape & how Fast Elevators stays ahead:

## Industry Context

- Urban growth drives demand for high speed, high capacity lifts.
- Accessibility and green building standards are evolving.

## Key Technological Trends

- Regenerative drives & energy recovery: Lowering energy costs.
- IoT enabled monitoring: Predictive maintenance, reduced downtime.
- Smart cabin interfaces: Touchless controls, displays, and lighting.

## Our Perspective

By integrating these innovations into every project, we deliver systems that move people safely while improving building performance and passenger experience.

# AUTHORIZED DEALERSHIP

We build lasting partnerships by delivering trusted products, dependable service, and lasting value.

## Key Collaborators

- Leading construction firms & developers
- Municipal and healthcare organizations
- Retail and hospitality businesses

## Value Delivered

- Shared project planning & risk management
- Clear and transparent progress reporting
- Reliable post handover training and support

# OUR VISION, MISSION & CORE VALUES

## Our Vision:

To be South Asia's preferred elevator and escalator brand, recognized for innovative solutions, uncompromising safety, and exceptional service.

## Our Mission:

- Deliver products that exceed performance and safety expectations
- Build lasting partnerships through trust, transparency, and reliability
- Advance sustainable solutions that reduce environmental impact

## Our Core Values:

**Safety First:** Every decision puts the safety and well being of end users first.

**Integrity** Honest communication, fair pricing & ethical conduct guide actions.

**Innovation:** Continuous R&D keep our solutions ahead of industry needs.

**Customer Focus:** We listen, adapt & respond to our clients with speed & care.

**Quality Excellence:** Unwavering commitment to best practices and global standards.

**SAFETY FIRST**

# PRODUCT OVERVIEW

Fast Elevators offers a complete portfolio of vertical transportation solutions:

## Passenger Elevators

Designed for smooth, safe & comfortable transportation across residential and commercial buildings.

## Observation Elevators

Elegant glass elevators that offer panoramic views while enhancing modern architectural spaces.

## Cargo Elevators

Built for heavy loads, delivering efficient transportation with strength and reliable performance.

## Dumbwaiter Elevators

Compact solutions for homes, restaurants, and service areas, ideal for transporting food and small items.

## Escalators & Moving Walks

Reliable systems designed for continuous, safe, and efficient movement of people in public spaces.

# PASSENGER ELEVATORS

## Applications

Ideal for residential towers, offices, hospitals, and hotels.

## Key Features

- Speeds up to 3 m/s for high rise buildings
- Load capacities from 450 kg to 2,500 kg
- Energy efficient gearless traction systems

## Design Options

- Stainless steel cabins with customizable finishes
- Glass doors and panels for a modern, open feel

# PANORAMIC ELEVATORS

## Distinctive Experience

Transform lobbies and atriums with glass walled elevators offering stunning city or nature views.

## Highlights

- 360° panoramic visibility
- LED lighting and display panels
- Smooth, quiet operation with advanced dampers

## Ideal For

Shopping malls, corporate headquarters & luxury residences.

# CARGO ELEVATORS

## Robust Handling

Engineered to move heavy loads safely and efficiently across industrial and commercial settings.

## Specifications

- Capacities from 3,000 kg to 10,000 kg+
- Reinforced steel cabins and doors
- Integrated safety gates and overload sensors

## Customization

Optional hydraulic drive systems for smooth, controlled start stop operation.

# DUMBWAITER ELEVATORS

## Convenient Mobility

Compact solutions designed for villas, multi story homes, and small retail spaces.

## Benefits

- Space saving designs for narrow shafts
- Quiet hydraulic or traction mechanisms
- Simple operation and maintenance

## Use Cases

- Private residences
- Kitchens, libraries, and small workshops
- Hospital laboratories

# TRAVELATOR & MOVING WALKS

## Seamless Flow

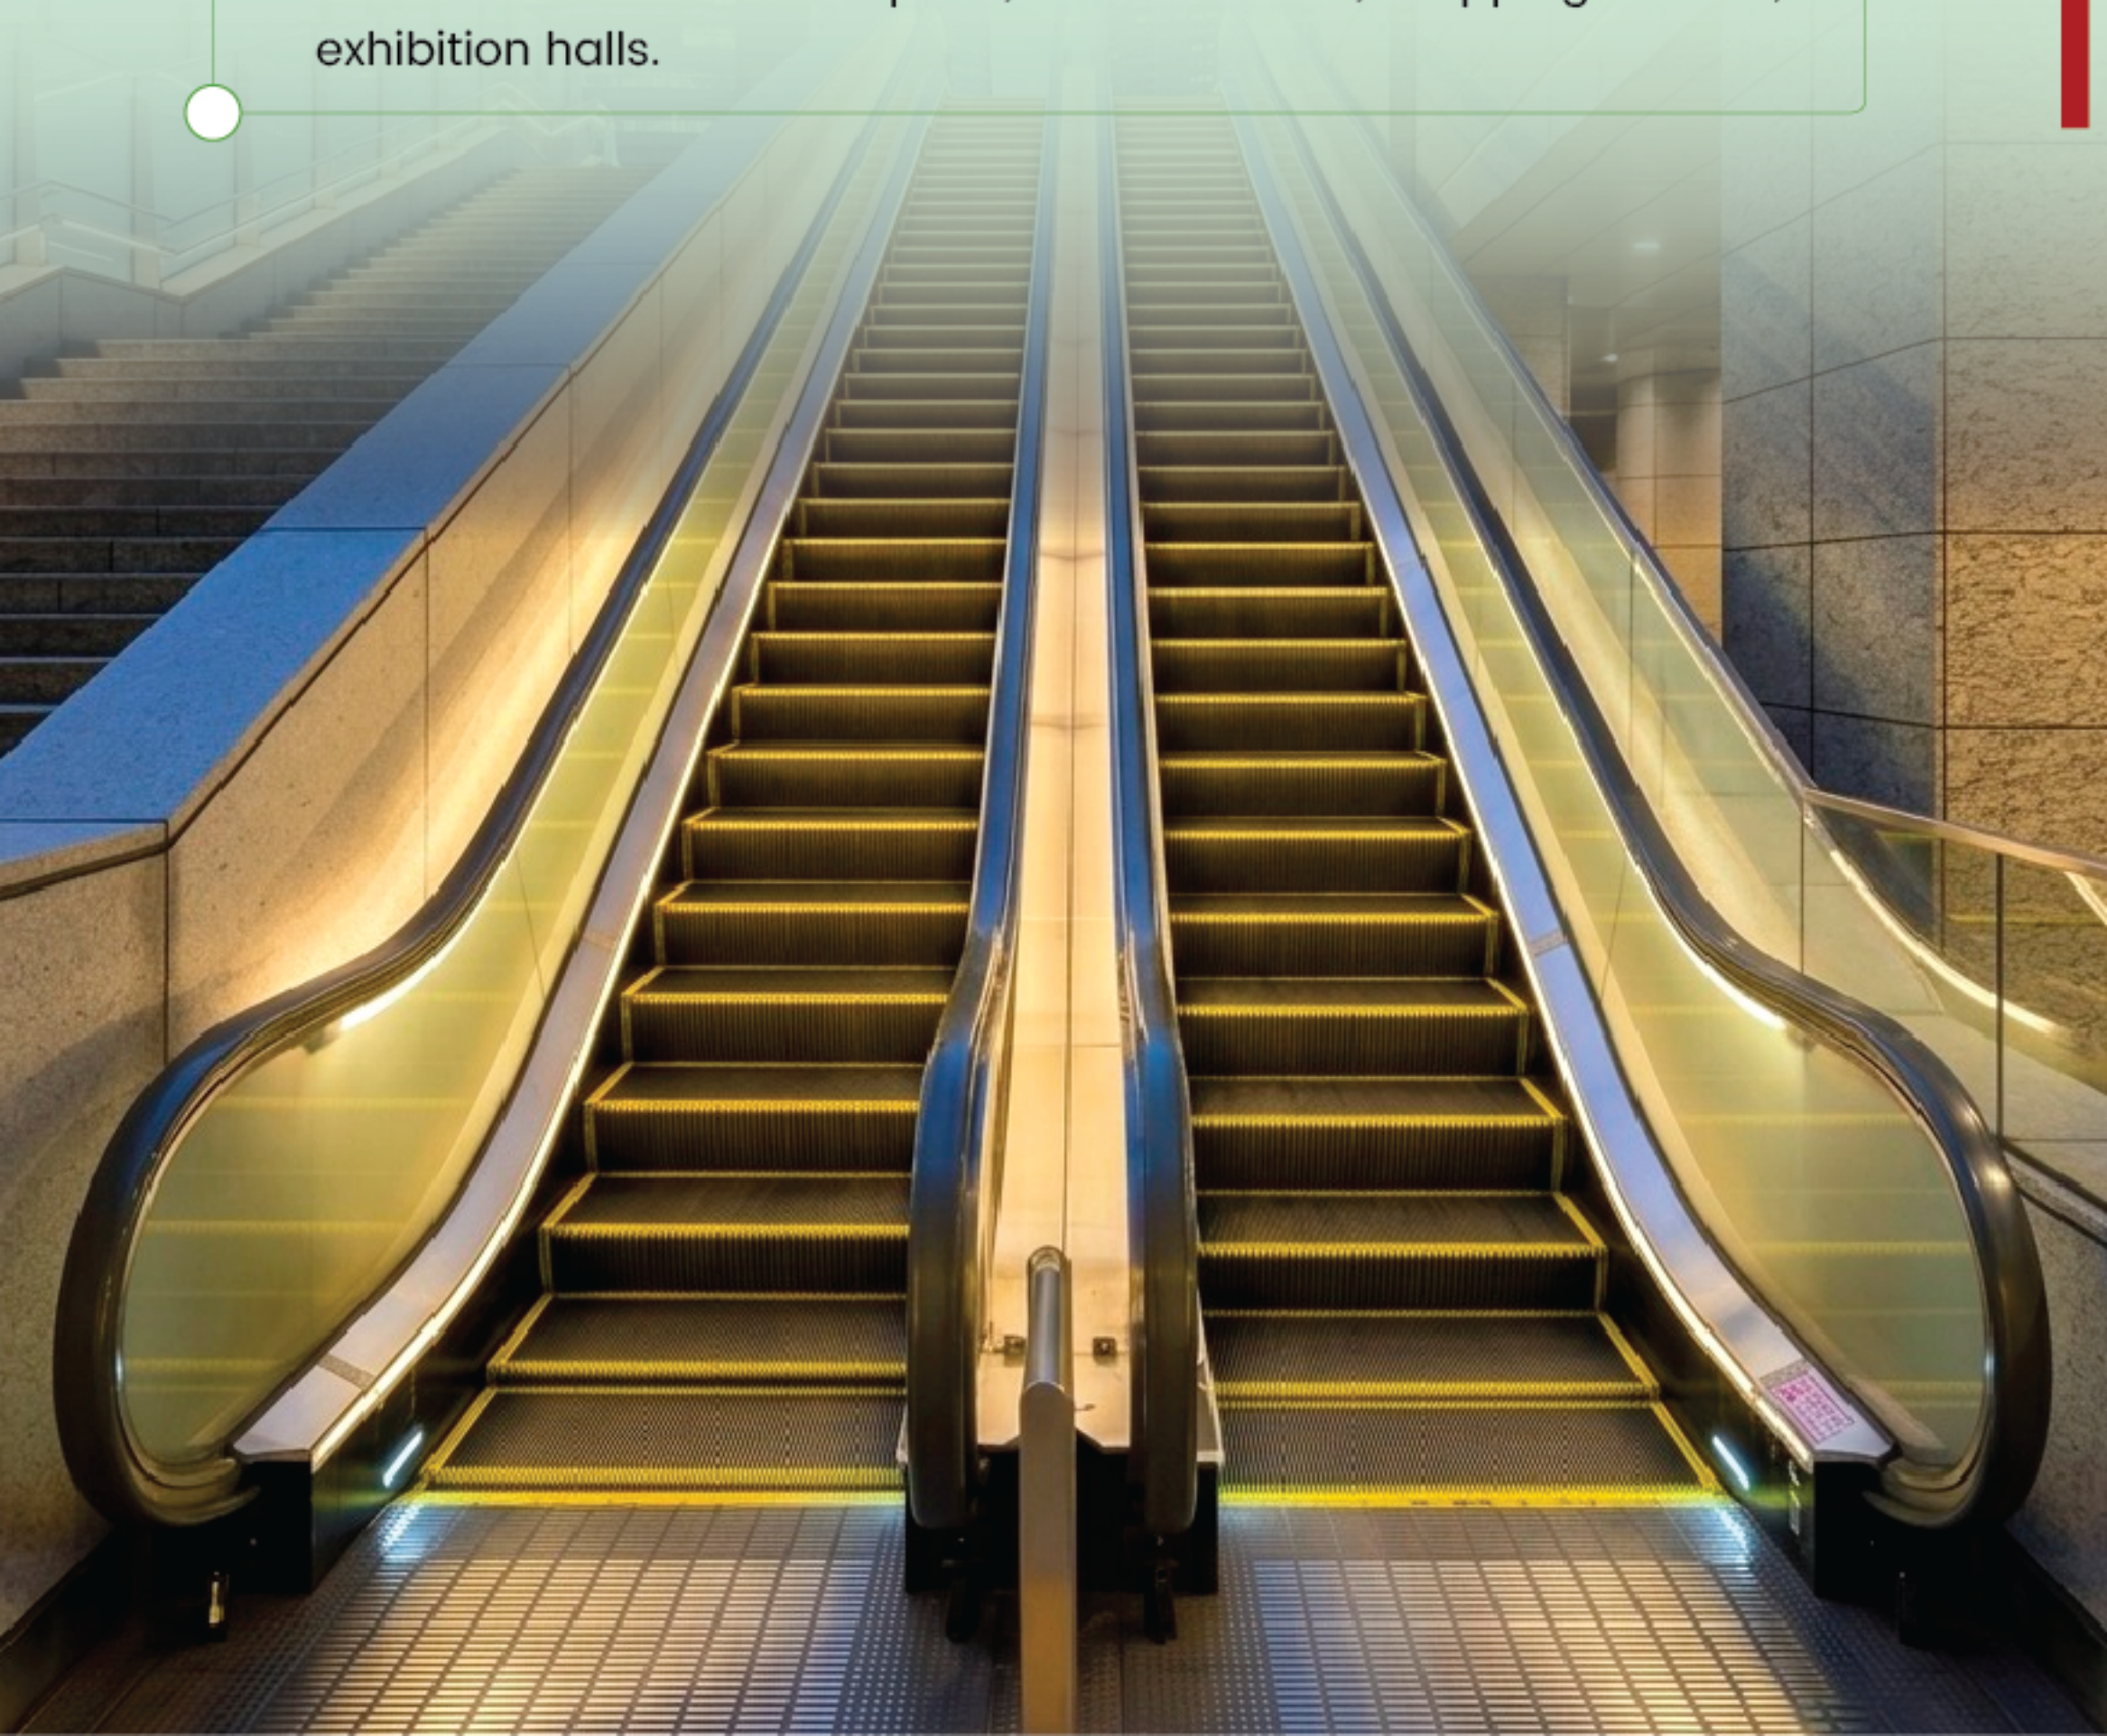

Enhance pedestrian movement with smooth, reliable solutions for high traffic locations.

## Features

- Modular step belts for easy maintenance
- Dual speed operation modes
- Integrated handrail sanitization options

## Deployment

Ideal for airports, metro stations, shopping centers, and exhibition halls.

# CUSTOM CABIN DESIGN

## Tailored Aesthetics

Our design studio works with architects to create elevator cabins that complement & elevate any interior.

## Design Services

- Material selection: stainless steel, glass & wood veneer
- Lighting concepts: ambient, accent & dynamic effects
- Branding integration: logos, signage & digital displays

## Advantages

- Distinctive visual appeal
- Enhanced passenger comfort and experience

# SAFETY & COMPLIANCE

## Uncompromising Standards

Our products are designed to meet recognized international & local safety standards:

- EN 81 20/50 (Europe)
- ASME A17.1 (North America)
- Local regulatory codes

## Safety Systems

- Overspeed governors
- Automatic rescue devices during power loss
- Emergency communication and lighting
- Overload protection systems

## Quality Assurance

- Factory acceptance tests (FAT)
- Site acceptance tests (SAT)
- Routine third party inspections

# AFTER SALES & MAINTENANCE

## Comprehensive Support

Our service network covers Islamabad, Lahore, Swat & beyond.

### Service Offerings

- Preventive maintenance contracts
- 24/7 emergency repair services
- Elevator modernization & refurbishment
- Remote monitoring & technical support
- Monthly inspection & performance testing
- Installation support & commissioning
- Genuine spare parts & replacement

### Benefits

- Extended equipment lifespan
- Reduced downtime and operational disruptions
- Regular safety audits for compliance
- Enhanced passenger safety
- Reliable performance with expert support
- Improved energy efficiency
- Lower maintenance & operating costs

# WHY CHOOSE US?

## Unmatched Expertise

- Over two decades of specialized experience in vertical transportation
- In house R&D focused on next generation elevator technologies

## Commitment to Safety

- Compliance with international and local safety standards at every stage
- Advanced safety systems protecting passengers and cargo

## Tailored Solutions

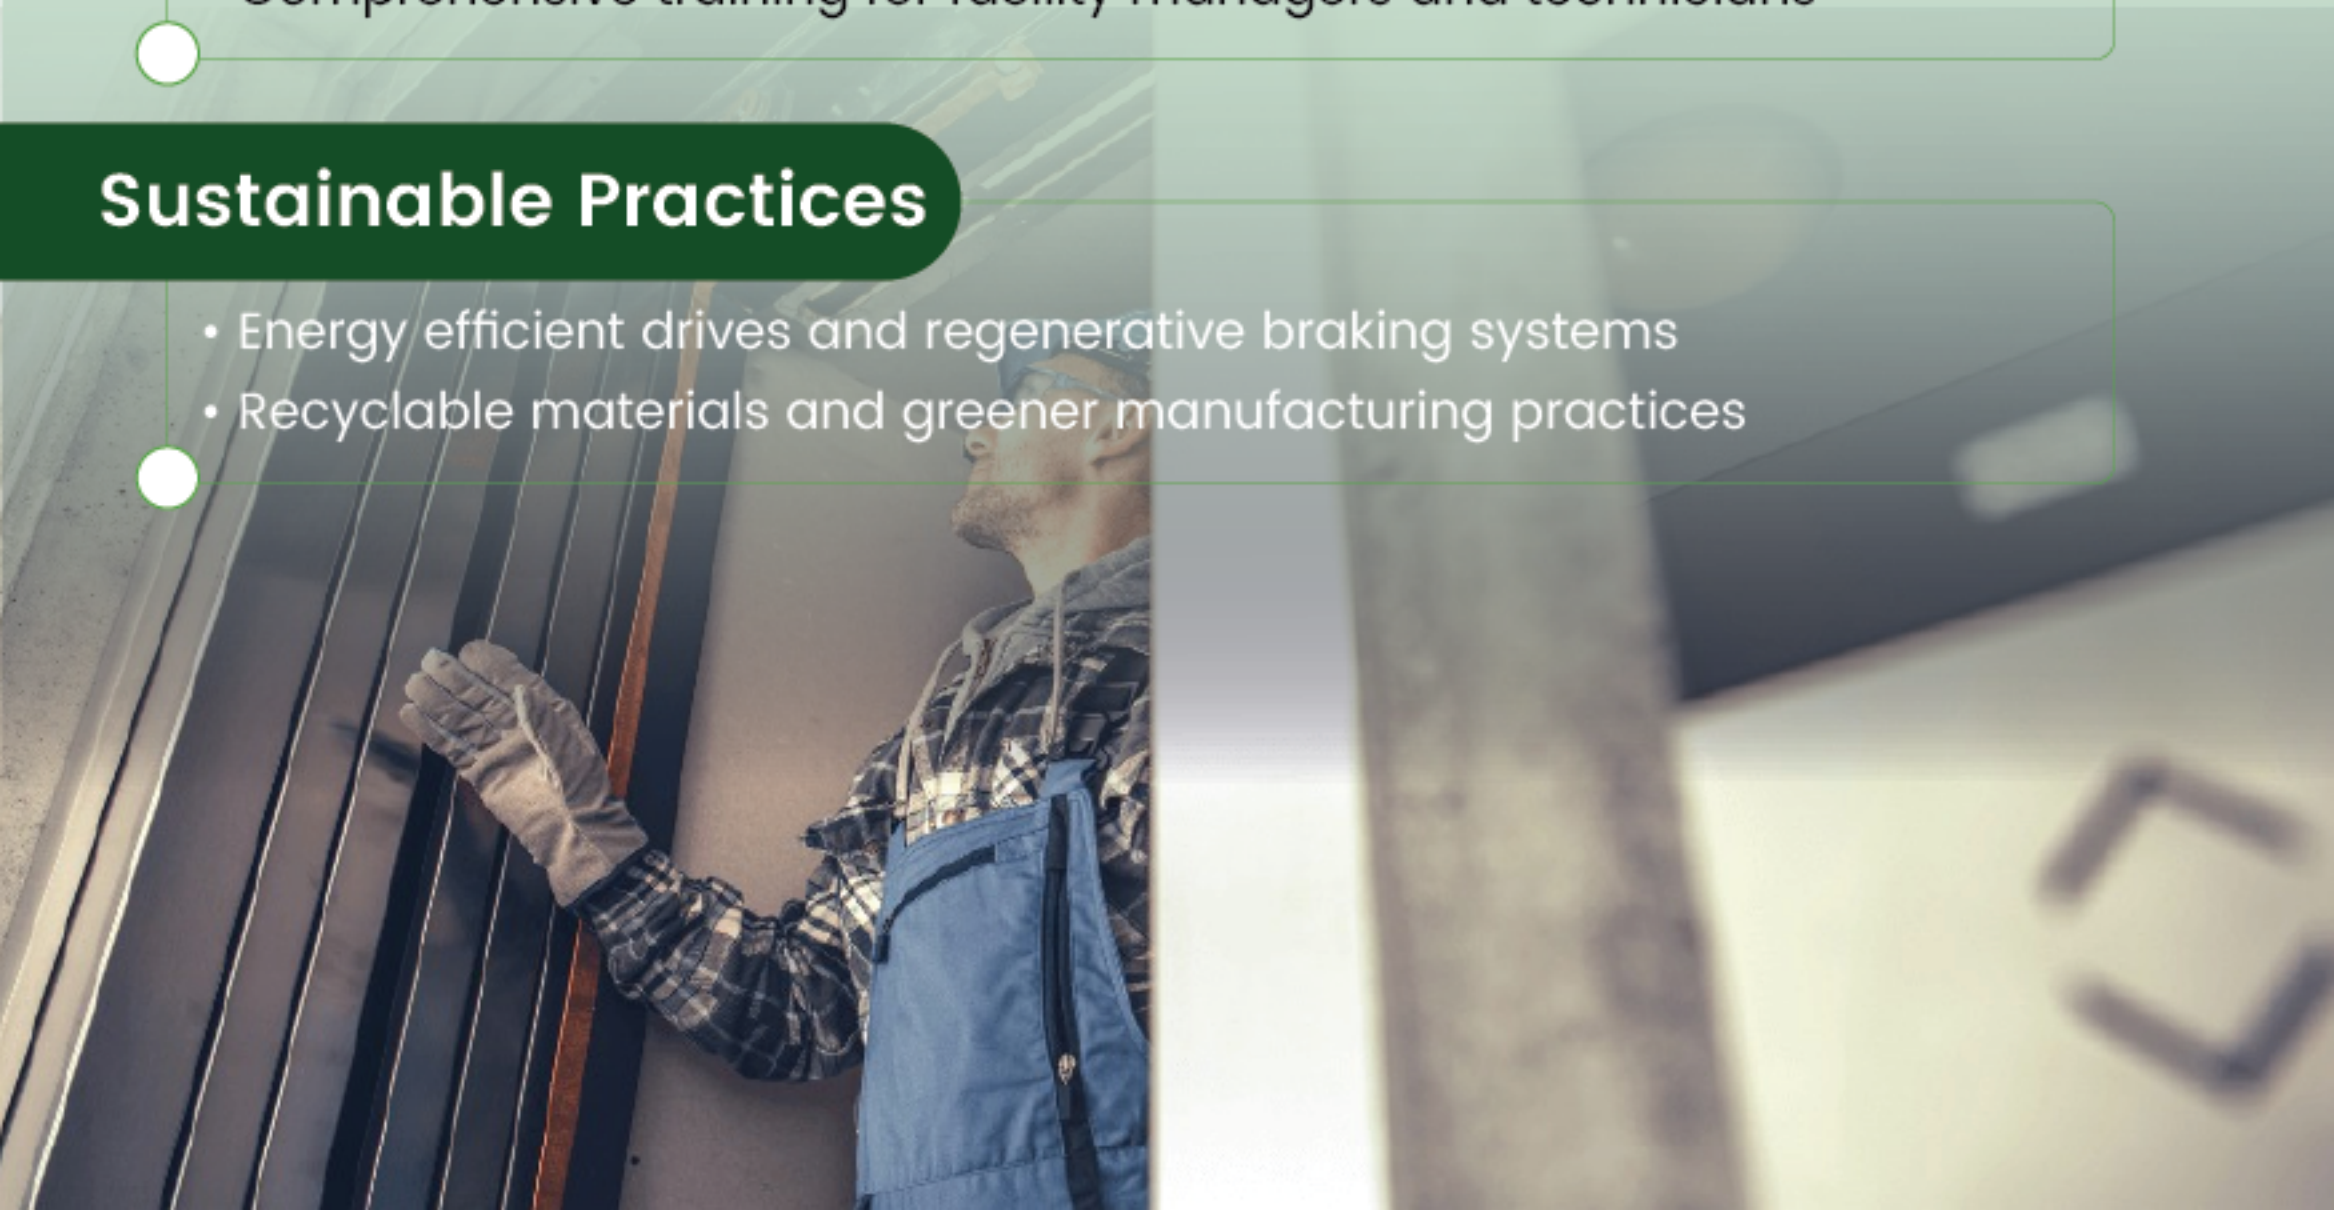

- Custom cabin designs that complement your architectural vision
- Scalable solutions for buildings of every size

## Reliability & Support

- 24/7 maintenance and emergency repair services
- Comprehensive training for facility managers and technicians

## Sustainable Practices

- Energy efficient drives and regenerative braking systems
- Recyclable materials and greener manufacturing practices
